

FIG. 1
CONVENTIONAL ART

FIG. 2
CONVENTIONAL ART

This diagram shows a cross-sectional view of a medical device, likely a catheter or probe, featuring a central shaft 131. The shaft is surrounded by two symmetrical chambers, 120 on the left and 123 on the right, which are separated by a central partition 134. The outer housing is labeled 110. Various internal components are labeled: 130 and 134 are the upper walls of the chambers; 141, 142, and 143 are lower internal structures; and 131a is a component on the shaft. Arrows B and B' indicate the cross-sectional planes.
